

## ERA TABLE

design David Lopez Quincoces

Family of tables of different shapes and sizes, consisting of a steel sheet frame 5 mm thick, laser cut in one piece, at which is fixed, by plastic elements, a contoured HPL top 8 mm thick, veneered in Stone Oak®, Thermo oak or Canaletto-dyed Walnut, or polished in a glossy finish RAL 3005 Red Wine, RAL 7030 Stone Grey, RAL 7039 Quartz Grey or RAL 9001 Cream.

Legs in tubular steel Ø12 mm with inset h.11 cm and foot in brass, secured to the steel frame through a threaded tie rod and a brass bolt. Floor support secured by black PVC feet. All metal parts, coated with epoxy powder gunmetal grey colour. Brass spacers, feet and bolts are satinized and finished with matt varnish. For the dimensions 90x90, 60x160 and Ø120 cm, a central leg is provided.

### Notes

Stone Oak®: this wood owes its particular coloring to an entirely natural process. Because of this, some slabs may look more brown than others. Our commitment is to provide you a high quality product; any differences in color should not be considered as defects.

On request, an additional protective (acrylic solvent) painting is available for the Stone Oak® finishing only. It should be noted that this additional coating slightly changes the natural color and texture of the surface. Although this supplementary painting increases the surface resistance, it is still a natural material; therefore small superficial stains, due to oil or other substances, have to be promptly removed, before being absorbed in depth by the wood. Thus, we recommend regular care and maintenance.
