

Living Divani @ PULSE Miami

5 – 8 December 2013

A benchmark in the designer furnishings market for the perfection, elegant proportions and understated luxury of its upholstered furniture, Living Divani is sponsor of PULSE Miami, the U.S. fair devoted exclusively to contemporary art. For the second year running, Living Divani has been invited to use its comfortable, elegant designs to furnish the VIP lounge at the fair. PULSE Miami is one of the most awaited events of Miami Art Week held during the renowned Art Basel Miami Beach fair, a very important appointment for international collectors.

With a few products from its outdoor collection, Living Divani furnishes and decorates a lounge area reserved for the art world's leading players attending the fair. The geometric line of **Extra Wall** sofa perfectly matches with the light, fresh look of Frog woven chairs; while the unconventional shapes of **Bubble Rock** sofas define the space with their smooth lines that give them an aspect of casual, carefree elegance. The company's furnishing plan rounds off with three **Jelly tables** enclosed by the light, discreet look of few **Cafè** chairs.

The space is completed by the playful energy of Nathan Yong's **Bolle**, which can be used as low tables or stools in various colours and their strong personality makes a bold statement. **Kalè** by Mario Ferrarini, is a low table with pure lines based on the simple shape of the circle that, with the addition of a soft circular cushion it becomes a practical stool.

Through this cooperation Living Divani confirms its interest in top-class cultural events not only in Italy but also all over the world.
