

Ile Club Daybed (indoor - outdoor)

design Piero Lissoni

Daybed, single or double, available for indoor and outdoor.

Indoor: seat chassis in lacquered steel with coated rubber elastic straps. Backrest in plywood panel adjustable through a mechanism. Seat and back cushions padded with differentiated density polyurethane foam and Visco-soft "Xtra-pur", covered with a quilted mat in prewashed and sterilized goose down, stitched into separate compartments, or covered with acrylic fibre layers. AISI 304 stainless steel square section tube base, matt satin-finished. Fabric or leather upholstery, both fully removable by zippers and Velcro fastenings.

Outdoor: seat chassis with cathoresis treatment and lacquered for outdoor, coated rubber elastic straps, hooks in stainless steel for outdoor. Backrest in marine plywood panel adjustable through a mechanism. Seat and back cushions padded with open cell structure polyurethane foam DRYFEEL S, covered with a waterproof fabric. AISI 316 stainless steel square section tube base, matt satin-finish. Standard with wheels only in the single version 188x85cm. Upholstery with outdoor fabrics only, fully removable by zippers and Velcro fastenings. Both versions have a mechanism inserted into the backrest frame, adjustable in 5 different positions from daybed up to a height of 82cm. Seat depth 124cm.
