

PLANE

design Massimo Mariani

Table made of two tempered glass panels, 120x120 cm with 12 mm thickness, with rounded corners and beveled edge. The lower glass panel has three through holes, two of which house the pins to insert the marble or wooden slab. The third hole houses another pin to support the upper glass panel, to which is fixed, with a UV-cured adhesive, a small plate with a conical counterbore to align it with the pin itself.

Finishes of the insert: slab of marble white Carrara, black Marquinia, red Levanto or Sahara Noir or in plywood veneered with 2 mm plates and edged with 4 mm solid "Canaletto" walnut or Stone Oak®. All versions are finished with a slip proof transparent matt varnish on the upper surface. Stainless Steel AISI 304 feet fixed to the glass panel through a UV-cured adhesive, paired with black plastic tips..

Notes

Wood is a living material; therefore, it can have slight color and dimension changes. The presence of any non-homogeneous color shades is not to be considered a defect but a quality.

Stone Oak®: this wood owes its particular coloring to an entirely natural process. Because of this, some slabs may look more brown than others. Our commitment is to provide you a high-quality product; any differences in color should not be considered as defects. For further information about this wood, please refer to the technical sheet available in the "Materials" section on our website.

On request, an additional protective (acrylic solvent) painting is available for the Stone Oak® finishing only. It should be noted that this additional coating slightly changes the natural color and texture of the surface. Although this supplementary painting increases the surface resistance, it is still a natural material; therefore small superficial stains, due to oil or other substances, have to be promptly removed, before being absorbed in depth by the wood. Thus, we recommend regular care and maintenance.

For marble finishing with opaque polyester finish, the "Marble" Maintenance Kit is included with the product.
