

## FJU

design kaschkasch

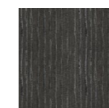

Space-saving desk, wall mounted through a 5mm steel-sheet plate to which are welded two clasps that act as inset for the mechanism's steel bar, embedded in the desk, and allow fixing and adjustment. Top frame made in "folding", side panels and internal partitions in 10mm birch plywood, veneered with oak plate, natural, charcoal

dyed, or Stone Oak® with water-based acrylic paint finish. Bottom in solid oak, with embedded the aluminum mechanism connected on the steel bar with a gas lift piston, allowing a 90° rotation to change function from desk to magazine rack.

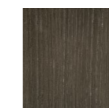

### Structure

Natural Oak

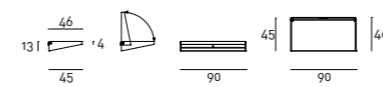

Charcoal-dyed  
Oak

Stone Oak®

### Technical Drawings

### Notes

Stone Oak®: this wood owes its particular coloring to an entirely natural process. Because of this, some slabs may look more brown than others. Our commitment is to provide you a high quality product; any differences in color should not be considered as defects.
