

## Mini Cafè

design Piero Lissoni

Armchair available for indoor and outdoor.

**Indoor version:** tubular steel frame with chromed finish or in AISI 316 stainless steel with matt satin- finish.

Seat panel in tubular steel with epoxy powder coating, padded in polyurethane foam (for chrome version) or in self- supporting decorative HPL plastic laminate (for AISI 316 stainless steel version).

Fabric or leather upholstery, both fully removable by zippers, after unscrewing the seat panel from the frame (for chrome version).

Woven with hide, hempen rope or PVC profile in the colours in collection.

Seat cushion in preformed differentiated density polyurethane foam, covered with acrylic fibre layers. Backrest cushion in prewashed and sterilized goose down, stitched into separate compartments.

For the *Light* version, backrest cushion, always in polyurethane foam coated with acrylic fibre layers.

**Outdoor version:** tubular steel frame in AISI 316 stainless steel with matt satin- finish. Seat panel in self- supporting decorative HPL plastic laminate.

Woven in PVC profile in the colours in collection.

Seat and backrest cushions padded with open- cell structure polyurethane foam and covered with fibre for outdoor.

Upholstery with outdoor fabrics only, as per chart on pg.43, fully removable by zippers.

For both versions seat and backrest cushion's upholstery are joined together by sewing.
