

CAFÉ | INDOOR - OUTDOOR

design Piero Lissoni

Small armchair available for indoor and outdoor use.

**Indoor version:** tubular steel frame with chromed finish or with epoxy polyester powder coating in gunmetal grey color. Seat chassis in steel. Padding in differentiated density polyurethane foam. Woven with hide or PVC profile in the colors in collection. Seat cushion with preformed, differentiated density polyurethane foam structure, coated with acrylic fiber layers. The backrest cushion in prewashed and sterilized goose down, stitched into separate compartments. In the Café Light version the backrest cushion is always in polyurethane foam, coated with acrylic fiber layers. Fabric or leather upholstery, both fully removable by zippers, after unscrewing the seat chassis from the frame.

**Outdoor version:** frame in AISI 316 Stainless Steel with matt satin finish. Seat chassis in self-supporting decorative HPL plastic laminated panel. Woven with PVC profile, in the colors in collection. Seat and backrest cushions padded with open cell structure polyurethane foam covered with draining fabric. Upholstered with outdoor fabrics, fully removable by zippers. Seat depth: 45cm.

Notes

For the Outdoor version, especially after prolonged rainy or humidity periods, it is suggested to rotate the elements and/or to temporarily lift the seat/back/armrest cushions to allow a complete drying and to avoid accumulation of dirt and moisture, causing the formation of mold.

It is recommended to use a "Protective Cover" to improve the longevity of the product; please note that the protective cover is made of water vapor repellent fabric, perfect to prevent and protect from the formation of mold, easily washable with water and soap. Do not keep the fabric folded for a long time when it is wet. For further information about the dedicated maintenance, please refer to the technical sheet available in the "Materials" section on our website. Lastly, we recommend placing the product on terraces or verandas to guarantee its durability over the years.

According to the product shape, some coverings cannot be used; please refer to the adaptability sheet in the "Materials" section of the website.

For leather coverings the "Leather A" or "Leather B" Maintenance Kit is included with the product.
