design Shibuleru

Valet stand "fixed on the wall", consisting of contoured double-paneled shelves thickness 18 mm, constituted of a 7 cm frame in solid beech wood and board honeycomb, enclosed by two aluminum plates, fitted with holes and bushings to allow the fixing of the posts. Finish in liquid painting RAL-K7 9010 white or RAL-K7 9017 black, or "cement effect" finish available in two colors, light and dark grey.

Steel posts Ø22 mm, with inserted fixing element and integrated height-adjustable PVC feet, finish with epoxy powder coating in RAL-K7 9010 white, RAL-K7 9017 black or gunmetal grey color. The structure is fitted with 2 supplementary steel supports with integrated height-adjustable PVC feet, secured to the bottom shelf. Wall fixing element, composed of a couple of "male-female" thread pivots (that allow a depth adjustment of the valet stand), anchored to the external posts through screws.

Hangers consisting of a Ø12 mm calendered steel rod and Ø35 mm steel ring lacquered with epoxy powder coating gunmetal grey colour, connected together by a "band" of sewn black leather.
