

The Graft table in the 300x100x70h cm version, designed by David Lopez Quincoces for **Living Divani** with a 'sandwich' top in rigid high-density polyurethane combined with sheets of carbon fiber, pre-impregnated with epoxy resins, and MDF paneling pressed and glued together (with bi-component adhesives) and sunken reinforcement in HPL for the assembly of the legs. The top is veneered in Stone Oak®, carbon stained or natural oak, with water-base coating, or in Striped Grey sheered multi-laminated wood with acrylic coating. The legs set the character of the design: a double square placed diagonally in extruded aluminium with CNC workmanship, on which to fasten stainless steel pegs to attach the top, with epoxy powder coating in gunmetal gray or burnished finish. Feet in plastic. George's chair designed by David Lopez Quincoces.
