Living Divani @ Milano Design Week 2023

Living Divani would like to thank all those who took part in **Milano Design Week 2023**, visiting our booth, or wandering around the city to discover new installations and collaborations, first and foremost the **Living Divani Gallery**, which saw a restyling of its spaces to accommodate the **Novelties 2023**. A sequence of images to relive the projects and meeting occasions just shared.

Salone del Mobile.Milano 2023

Living Divani presented itself at the **Salone del Mobile.Milano**, with a booth of over 800 sqm to propose a place that is meant to be home. The project curated by Piero Lissoni, Art Director of the brand since 1989, recounted Living Divani's renewed "silent elegance" through a **sequence of intimate and delicate environments** in which fine materials, sophisticated fabrics and well-defined forms become the subjects of the narrative. The home as a place of intimacy and privacy is juxtaposed with contexts of sociability and encounter, and past collections join new proposals in a **concert of notes that is both charming and essential**.

Living Divani Gallery

On the occasion of Fuorisalone 2023 **Living Divani Gallery** presented an extraordinary installation by Piero Lissoni, an expression of creativity that tells the story of the Company in an unreleased way, through an **unexpected stylistic mix**. The windows on Corso Monforte and Via Visconti di Modrone transport visitors into a place with a strong identity that once again refers to a theatrical setting and invites to enter and discover the proposals of the new 2023 Collection.

"The installation mixes mirrored surfaces, steel sheets and luminous neon in a play of reflections and lights that wants to surprise in a corner of Milan that is always on the move. In the windows, some "soft" products covered in ecological fur made from natural yarns alternate with models covered with mirrored fabrics in a contrast between cold, smooth surfaces and warm, comfortable materials that disorients the viewer." comments Piero Lissoni, Art Director.

Other Collaborations @ Milano Design Week 2023

Living Divani @ Red Lounge

In addition to its presence at the fair, the 2023 edition of the Salone del Mobile.Milano once again saw Living Divani products furnish the **Red Lounge**, whose installation design was handled by Studio Lissoni. Confident and Frog armchairs and the Wedge table characterise the space.

Living Divani @ Lualdi

Lualdi unveiled new products 2023 and accompanied the presentation with some furnishings by Living Divani, including the lenticular version of the Sumo sofa and the Clan armchairs, in the Alta and Bassa versions.

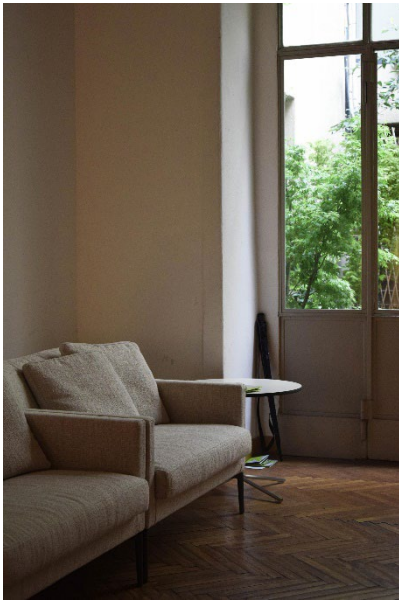

Living Divani @ Slamp

Slamp presented its new collections, protagonists of a renewed set-up that hosted several Living Divani products, including a large and elegant Pasticca composition and several components of the Era family, such as small tables, a pair of Chairs and a refined Settee.

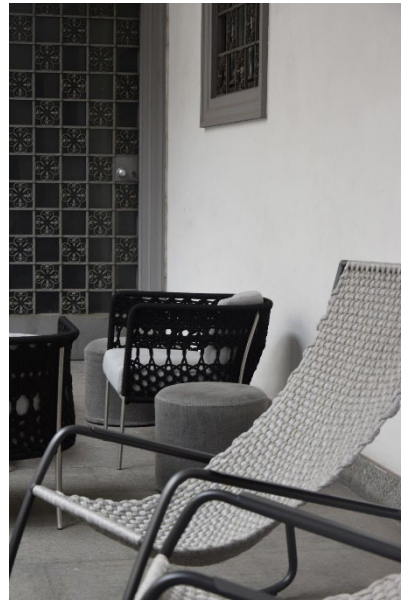

Living Divani @ Open Studio Cafè

Studio Lissoni opened its doors to the public, offering the opportunity to discover some of architect Piero Lissoni's projects, as well as proposing itself as a place for leisure and dialogue, thanks to the collaboration with Living Divani, which provided upholstered furniture perfect for relaxation and conversation.

Living Divani @ Design Variations

Design Variations at the FuoriSalone 2023 MoscaPartenrs set up the Circolo Filologico which animated the art district with a site-specific work signed by Studio Zaven. Living Divani collaborated as a relaxing partner, supplying a number of representative furnishings including the Extrasoft sofa and a Greene System composition and the Graft table.

Living Divani @ Rimadesio Flagship Store

Once again for 2023 Living Divani has collaborated with **Rimadesio** for the fitting out of its Flagship Store in Via Visconti di Modrone. The protagonists of the charming interior courtyard were numerous chairs from the upholstered brand's outdoor collection, including the more classic Cafè, Nut and Tombolo and the particular Rivulet and Flow.
