

## Living Divani is once again collaborating with Automobili Lamborghini for the setting up of Lamborghini Lounge in Porto Cervo

Living Divani renews the collaboration with Automobili Lamborghini for the fourth consecutive year, setting up the **Lamborghini Lounge** in **Porto Cervo**.

A heavenly corner in Sardinia, Promenade du Port in Porto Vecchio street, will welcome the Lamborghini Lounge, a unique space for guests to live an immersive experience in supercar's world and to discover an exclusive lifestyle in refined context.

The environment's set up is enhanced thanks to the exclusive **Living Divani** design, that narrates different areas accompanying the clients in a luxury context of super-sports cars.

At the entrance, the **Islands** furnishing accessory, conceived by **Stephen Burks**, is designed to engage the imagination of guests, presenting itself as the first element of this immersive path. **Nina** stools by **David Lopez Quincoces**, tracing a harmonic curve on the ground, characterize the Counter Bar area. Alongside the environment **Grek Box** signed **Oscar & Gabriele Buratti**, is a play of solids and voids that generates compartments at different heights for the multiple measures of books and objects. Next, the setting of the **Sumo** family, tribute by **Piero Lissoni** to essence of elegance, infuses dynamism, character and energy to the space with its slender and unique silhouette. Consisting of sofa, armchairs, bench, coffee table and container, it appears as the comfort area for excellence.

Immediately next, the Ad Personam area, the corner where you can customize your supercar comfortably seated on a **Maja D** chair designed by Piero Lissoni. The **Graft** table by **David Lopez Quincoces** is present in this room too, with top in charcoal dyed oak.

Lamborghini Lounge offers a luxurious external portico. Living Divani proposes a selection of its own outdoor collection, choosing **Agra**: perfect proportions, neoclassical elegance and oriental charm for the sofa and two armchairs signed by **David Lopez Quincoces**. The coffee tables chosen, next to the pure shapes of Agra, are **Ile Table**, complements of various dimensions created by **Piero Lissoni**; their light and sophisticated shape obtained thanks to the slender metal structure, makes them objects of contemporary beauty.

A collaboration that celebrates shared values, enhancing two brands of excellence of **Made in Italy**, creating an iconic space of luxury and design.
