

Living Divani renews its partnership with Automobili Lamborghini for the setting up of the Porto Cervo Lounge

Living Divani, Italian Company leader in the design scene, renews its partnership with the renowned luxury super sports car brand Automobili Lamborghini, furnishing, for the fifth year running, the exclusive and luxurious Lamborghini Lounge in Porto Cervo. Located on Promenade du Port in via Porto Vecchio, it will remain open until September 6th, accessible by appointment, serving as the hub for test drive opportunities or location for events organized by Lamborghini dealers. All the Lounges, whether permanent or temporary, are a point of reference for Lamborghini VIP customers and guests, combining the lifestyle of Lamborghini with the style and comfort of Living Divani design collection, in the name of a 100% "Made in Italy" experience. The Lounge Porto Cervo, with its 600-square-meter inside area and additional private patio, offers an immersive 360° brands involvement through several elements, for a sophisticated scene that envelops the visitors while expressing the Italian lifestyle of which the two brands are true ambassadors.

The Space

Situated in Costa Smeralda this Lounge matches once again iconic products with the recent proposals of the furniture brand, which share with Lamborghini the typical Italian spirit, beauty and heritage. At the entrance, the visitor is welcomed by the area dedicated to the Heritage Wall which shows the **Islands** storage unit. Designed by **Stephen Burks**, it is accessible on various sides thanks to the perimeter of wooden slats mounted with apparent randomness that, turning on themselves, now create a compact presence, now an airy element, for different interpretations of the same product, always conveying a taste of refined craftsmanship. Perfect for a relaxing break to enjoy even in company, the **Nina** stools lightly parade in the Counter Bar. Protagonists of the Living Area, the **Sumo** armchairs designed by **Piero Lissoni** are paired with the **Oolong** seat and the **Moon Coffee Table**, proposed in two different variants, **Eclipse and Full Moon**. Among the complementary furniture, the **Graft** table accompanies the experience of the car configurator inside the AD Personam Room, surrounded by the **Maja D** chairs. Lastly, the **Agra** upholstery family by Spanish designer **David Lopez Quincoces** furnishes the Backyard, both in the sofa and armchair versions, together with the **Ile** coffee tables, in the outdoor version.
