

Novelties 2024 live a new season inside the Living Divani Gallery

Living Divani Gallery showcases an enveloping and delicate atmosphere to welcome the Novelties 2024 in settings that evoke a home feeling. Environments with soft, refined nuances enhance the design and uniqueness of the new proposals, which dialogue in elegant combinations of finishes and materials.

Welcomes the visitor **Graft** table, designed by **David Lopez Quincoces** in 2022, now in a new round edition characterised by a segmented inlay, which does not renounce the geometric detail that the legs create joining the top. It is accompanied by **Era Chairs** designed by the same designer.

Along via Visconti di Modrone, the model **Lorentz**, designed by **David Lopez Quincoces**, enchants in its island configuration embracing the room: the cushions, resting on a wide base as if suspended, convey a sense of calm and lightness, in an interplay of "tops and seats". Together with it a pair of **Frog** armchairs, brand's bestseller icon which is to celebrate its first 30 years, will find new variants in Living Divani's catalogue.

On the other side over Corso Monforte, two settings follow each other in a *unicum* that perfectly represents Living Divani's domestic vision. In the first area, **Echoo**, design **Piero Lissoni**, whose shell encompasses the entire sofa as if to contain it, is in dialogue with **Balestro 24**, from the same designer, a concept based on the simplicity of the components, where the slender and lightweight base is surmounted by a soft cushioning, in this version enclosed by woven cellulose rope armrests. In the second area instead, **Balestro 24** is displayed with backrests in the upholstered variant, in a light-coloured fabric, and combined with the **Kasumi** armchairs, designed by **Mist-o**, which are able to convey a sense of lightness and naturalness thanks to a wooden structure, with a demure but distinctive character.

'A new layout interprets the Living Divani Gallery windows, the place where we daily welcome professionals and visitors keen to discover our world. A measured presentation that surprises with its elegance demonstrating once again how the different models in our collection coexist and dialogue with each other, for a harmonious and authentic ensemble.'

Carola Bestetti, CEO Living Divani
