

Glowing Christmas @ Living Divani Gallery

To welcome the holiday season, **Living Divani Gallery** renews its window displays with a visual proposal that blends elegance, color, and a joyful atmosphere.

Original **window decals** create a sophisticated artistic play, where festive greetings messages, in multiple languages, interweave and combine inspired by the traditional outline of Christmas baubles. This design captures the universal spirit of the holidays, inviting visitors into a world of creativity and refined style.

Enhancing the magical setting, **voluminous silver elements** add a decorative touch and exclusive charm to the space. Their shapes reflect and emphasize the silhouettes of the featured products, which are adorned for the occasion with vibrant **red** finishings, creating warm and enveloping contrasts. Highlights include the **Maja D** armchairs, with pure and delicate lines, paired with the **Graft** table designed by **David Lopez Quincoces**, as well as the lively **red** cushions evenly distributed among the upholstered pieces on display, including the **Echoo** and **Balestro 24** sofas, and the **Kasumi** armchair, infusing energy and harmony to the environment, animating the space.

"This new layout is an invitation to immerse oneself in the elegance of the Living Divani world, where every detail is designed to inspire and praise the magic of the celebration"

Carola Bestetti – CEO Living Divani
