

Living Divani @ 3daysofdesign 2020 in partnership with Fiorini Trading

Living Divani takes part in **3daysofdesign**, the annual event that brings together architects, designers and design enthusiasts from all over the world in Copenhagen, to experience new lifestyles as well as to learn about the novelties proposed by the main players in the Danish design scene. For this occasion, in fact, **Fiorini Trading showroom** renews itself presenting some of the new models of Living Divani's collection including the **Floyd-Hi 2** linear sofa, designed by **Piero Lissoni**, characterized by the particular of the armrest and back cushions set between structure and seat, and the welcoming **Greene**, by the Spanish **David Lopez Quincoces**, with an elegant natural leather shell and the seats covered in a delicate and soft fabric. Among the complementary furniture are the **Pebble Low Table** in the variants with top both black lacquered and with Red Levanto marble: delicate silhouette, like stones, that privileges now a rounded layout or an elongated one.

This space represents a sequence of moments dedicated to Living Divani that gives the public ideas and inspirations where relaxation and elegance are the protagonists. No-one is able to resist the charm of the **Dumas** sofa, covered in black leather and signed **Piero Lissoni**, which proposes, renewed, a shape that in memory represents the comfort par excellence given by generous and livable padded forms. It is flanked by the **Era tables**, by the Spanish designer **David Lopez Quincoces**, proposed in different sizes and finishes that emphasize their sophisticated soul, and the **Tonbo** coat hanger, and presented in both heights with black Marquinia marble base.

Among the bestsellers featuring is the **Frog** armchair, designed in 1995 by **Piero Lissoni**, and exhibited both in the woven version, combined with a soft cushion, and in the padded one: clean lines, to give maximum emphasis to geometries and volumes, and a meticulous attention to the proportions of the individual elements and the harmony of the whole, are the secret ingredients that have transformed over the years this simple product into a timeless icon.

Functional to furnish an elegant dining room and at the same time versatile object for the office, the **Notes** table by **Massimo Mariani** is surrounded by **Era chairs**; the graphic game that rhythms the design of the table, offering a different perspective each time, converses harmoniously with the essential lines of the seats, always in the name of lightness.

To underline the Company's interest in proposing a collection open to cultural contaminations, the **Rivulet** chair by **Junpei & Iori Tamaki** where the tubular wooden structure is embellished with a decorative weave that becomes its characterizing element. **Studio Juju**, based in Singapore, in 2012 designs the **Rabbit & the Tortoise Collection** tables: objects that can be arranged fluidly in the space, decorating the rooms with elegance and joy. To blend traditional Japanese style with Italian design and Spanish character, the **Inari** console by **Mist-o**, an elegant black steel sheet monolith is topped with **Mario Ferrarini's Galileo** mirror, both accompanied by **Anin**, elegant, sculptural and minimalist stool that thrives on the precision of its lines and the high quality of its materials.

Among the upholstery the **Floyd-Hi** sofa recently designed by **Piero Lissoni**, with the intention of combining classic and hi-tech at the same time, especially in the detail of the bracket that distinguishes the fixed version.

3daysofdesign represents an invitation to rediscover the Living Divani world not only through the numerous settings inside the Fiorini Trading showroom but also with a program of events that will be held in exclusive locations such as the **Embassy of Italy** in Copenhagen, where architects, designers and journalists, have the opportunity to experience the relaxation of an elegant **Extrasoft** composition in bicolor leather, and to "touch" the quality of the details of the **Lipp** sofa and bench that reinterpret the luxurious capitonné style with the contemporary geometrical spirit.
